

INET 5GHz Parabola Antenna

The **INET parabola antennas** is a cost-effective solution for the users who want to make a good quality data transfer on the 5 GHz frequency band.

The material of the dish is UV-inhibited powder painted steel.

Package content: parabola antenna, wall mounting, antenna head.

Features

- Easy installation
- 35cm, 55 cm, 80 cm diameter dish
- Excellent price/performance rate
- Horizontális vagy vertikális polaritás
- Outdoor quality
- Directional antenna
- Galvanized wall mounting
- Material of the head: copper

Technical Specification

Product	INET-535-1	INET-555-1	INET-580-1
Frequency range	5,15-5,85 GHz		
Diameter (cm)	35	55	80
Gain (dBi)	23	26	29
3 db Beamwidth (degree)	10	7	4
Mounting (Ømm)	25-40	30-45	30-45
Polarity	Horizontal or vertical, depends from the position of the head		
Coated Material	UV-inhibited powder painted steel		
Impedance	50 Ohm		
Connector	N female		
Warranty	1 year
