

MyTek MWAN-UM00 Universal Magnetic Mount for Antenna

The **MWAN-UM00** has a magnetic base for mounting to a metal surface like file cabinets or metal desks. It also has a non slip rubber base for placement on a non metallic surface like wood desks or bookshelves.

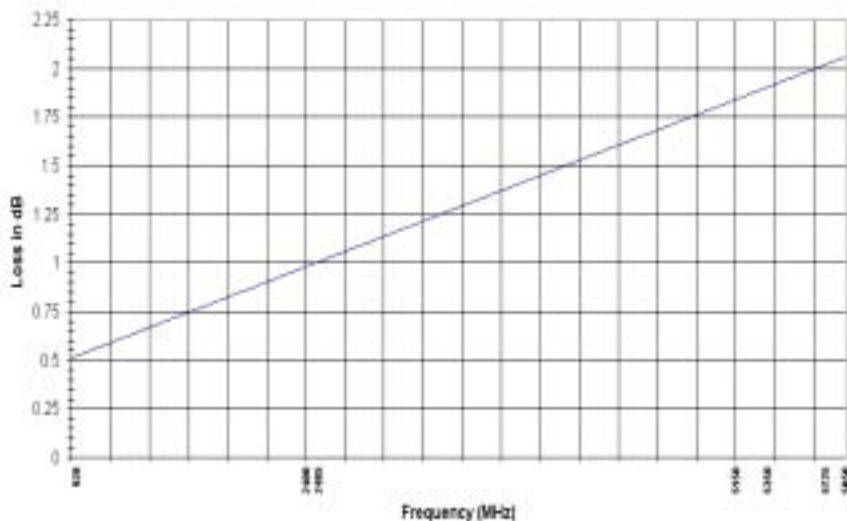

The mount is designed to hold an RP-SMA connector type rubber duck antenna.

Install the rubber duck antenna on the mount base. The antenna is an omni directional so position the mount with antenna close to the physical center of the desired coverage area.

Specification

Frequency Range	900MHz~5.85 GHz
Loss	Min:0.5 dBi, Max 2.0 dBi. Typ 1.0 dBi
Input Return Loss	-14 dBi
VSWR	1.5:1
Impedance	50 Ohm
Input Power	20 W max
Operating Temperature	-40~+70°C
Weigth	213 g
Dimension (Dia x H)	50 x 50 mm

MW-RD Loss Versus Frequency

Mount With 5dBi Rubber Duck Antenna
